EDUCATION

The University of Texas at El Paso (UTEP)

Bachelor of Business Administration in Information Systems & Business Analytics

Dec. 2025

El Paso, TX

Honors: Dean's List (Spring 2023, Fall 2024) | Major GPA: 3.75/4.00 | Overall GPA: 3.00/4.00

Leadership: Association of Information Technology Professionals, Board Member (Spring 2024–Fall 2025)

PROFESSIONAL EXPERIENCE

BEST Crowd Management (GardaWorld) — Security Officer

Aug. 2023–Present

Event Security Operations

El Paso, TX / Event Assignments

- Selected for security assignments supporting FIFA World Cup 2026 events, major concert tours including BTS and Coldplay, Monster Jam, and NCAA football events.
- Perform access control, credential verification, bag screening, crowd monitoring, and restricted-area protection for large venues with attendance reaching 20,000+ guests.
- Monitor guest activity, identify safety concerns, de-escalate conflicts, and communicate incidents to supervisors and event command personnel.
- Coordinate with venue staff, law enforcement, and emergency personnel to support safe entry, event operations, and orderly guest movement.
- Document incidents and policy violations accurately while maintaining professional customer service in high-pressure environments.

GardaWorld Federal Services — Detention Officer

Apr. 2026–Jun. 2026

El Paso East Camp

El Paso, TX

- Maintained safety, security, and accountability within a federal detention environment by supervising detainee movement and enforcing facility procedures.
- Conducted scheduled counts, security checks, and area inspections; documented observations, activities, and incidents in required logs.
- Responded to operational issues and coordinated with supervisors and team members while following established federal detention standards.

Education At Work — IT Analyst

Feb. 2022–May 2024

Technical Support Operations

El Paso, TX

- Provided real-time technical support to approximately 50 users, resolving Windows 10/11, Microsoft 365, account-access, software, and connectivity issues.
- Troubleshoot Outlook, Teams, OneDrive, password resets, MFA, Wi-Fi, VPN, and basic LAN problems using structured diagnostic procedures.
- Created, updated, and tracked support tickets; documented troubleshooting steps and resolutions to maintain accurate service records.
- Escalated complex incidents to specialized IT teams with clear notes, supporting timely resolution and reducing repeated troubleshooting.
- Communicated technical instructions in user-friendly language while maintaining professional service in a fast-paced support environment.

TECHNICAL PROJECTS

- AI Support Ticket Classifier | Python, NLP, scikit-learn**

Dec. 2025

 - Built a machine-learning system that classifies support tickets by type and priority using TF-IDF and Logistic Regression.
 - Prepared and trained models on 28,000+ English-language support tickets; added top-two probability outputs and a terminal-based prediction workflow.
 - Created reusable pipelines and saved trained models with joblib for consistent inference and future application integration.
- AI Resume Tailoring Tool | Python, NLP**

Dec. 2025

 - Developed a tool that compares resumes with job descriptions using TF-IDF and cosine similarity to identify keyword and skill gaps.
 - Generated ATS-friendly suggestions and role-specific bullet recommendations while preserving truthful, user-provided experience.
 - Built a modular workflow with separate matching, skill-bank, resume-input, and tailored-output components.
- Network Security Implementation | Linux, Nmap, Wireshark**

May 2025

 - Performed vulnerability scanning, packet analysis, and simulated threat assessment in a controlled network environment.
 - Identified security weaknesses and implemented defensive controls that reduced successful simulated attack scenarios.
- Big Mac Index Analysis | Python, Power BI**

Dec. 2024

 - Processed international economic data and developed Power BI visualizations to compare purchasing-power trends across 20+ countries.

LEADERSHIP & COMMUNITY EXPERIENCE

- Association of Information Technology Professionals (UTEP)**

Spring 2024–Fall 2025

Board Member & Social Media Manager

 - Managed outreach and social media content using Canva, helping increase event awareness, attendance, and student engagement.
 - Collaborated with the executive board and local organizations to coordinate events, fundraisers, and student-focused initiatives.
- Youth Impact — Youth Leader (Volunteer)**

Apr. 2022–Present

 - Lead volunteers in grocery distribution serving 100+ families and facilitate development activities for teenagers.
 - Support workshops focused on communication, leadership, personal development, and career readiness.
